- Gross margin of 23.5%, up 120 bps year-over-year
- Interest expense of \$23.1 million, down 48.7% year-over-year
- SG&A of \$41.8 million, up 30.5% year-over-year
- Operating loss of \$2.4 million, vs \$11.2 million operating profit, year-over-year
- Net loss of \$26.9 million (\$25.7 million attributable to Exela Technologies BPA, LLC.), an improvement of \$4.0 million year-over-year
- Adjusted EBITDA of \$13.7 million, down 39.0% year-over-year

IRVING, Texas, Aug. 15, 2024 (GLOBE NEWSWIRE) -- Exela Technologies BPA, LLC. ("Exela" or the "Company") (NASDAQ: XELA, XELAP), a global business process automation ("BPA") leader, announced today its financial results for the quarter ended June 30, 2024.

"Our increased operating leverage and continued focus on cost management and rationalization of our real estate footprint are reflected in the solid expansion of our gross margin. We continue to add new logos and remain cautiously optimistic as we head into the second half of the year," noted Par Chadha, Executive Chairman.

- **Revenue:** Revenue for 2Q 2024 was \$245.7 million, a decline of 10.0% compared to \$272.9 million in 2Q 2023 (or a decline of 9.3% when excluding the sale of the high-speed scanner business in June 2023).
 - Revenue for the Information and Transaction Processing Solutions segment was \$156.8 million, a decline of 15.2% year-over-year (or a decline of 14.0% on a pro forma basis when adjusted for the sale of the high-speed scanner business that occurred in June 2023).
 - Healthcare Solutions generated \$62.9 million in revenue, a 1.1% decline year-over-year.
 - Legal & Loss Prevention Services generated \$25.9 million in revenue, a 6.3% increase year-over-year.
- **Gross margin** of 23.5%, up 1.2% year-over-year due to lower costs.
- **Interest Expense** of \$23.1M, down 48.7% year-over-year due to the Company's debt modification in July 2023.
- **SG&A** of \$41.8M, up 30.5% year-over-year due to profit on the sale of our high-speed

scanner business of \$6.6M recognized in 2Q 2023. Other SG&A expenses were higher by \$9.0 million, due to \$10.1 in Q2FY24 write-downs, predominantly driven by a partner contract amendment, which provides for higher pricing and service expansion but resulted in a non-cash write down of the original contract's straight-line revenue recognition and related contract assets. The SG&A increase was further offset by lower legal and professional fees and employee related costs.

- **Operating Loss:** Operating loss of \$2.4 million, versus an Operating profit of \$11.2 million in 2Q 2023, primarily driven by lower revenue and higher SG&A, partially offset by higher gross profits.
- **Net Loss:** Net loss of \$26.9 million (\$25.7 million attributable to Exela Technologies BPA, LLC.), an improvement of \$4.0 million year-over-year, primarily driven by lower interest expense following debt modification in July 2023, partially offset by higher SG&A.
- **Adjusted EBITDA⁽¹⁾:** Adjusted EBITDA was \$13.7 million compared to \$22.5 million in 2Q 2023, a decline of 39.0% year-over-year, while up 6.7% sequentially. Adjusted EBITDA margin was 5.6%, a decrease of 260 basis points from 2Q 2023.

Below is the note referenced above:

(1) Adjusted EBITDA is a non-GAAP measure. A reconciliation of Adjusted EBITDA is attached to this release.

About Non-GAAP Financial Measures

This press release includes constant currency, EBITDA and Adjusted EBITDA, each of which is a financial measure that is not prepared in accordance with U.S. generally accepted accounting principles ("GAAP"). Exela believes that the presentation of these non-GAAP financial measures will provide useful information to investors in assessing our financial performance, results of operations and liquidity and allows investors to better understand the trends in our business and to better understand and compare our results. Exela's board of directors and management use constant currency, EBITDA and Adjusted EBITDA to assess Exela's financial performance, because it allows them to compare Exela's operating performance on a consistent basis across periods by removing the effects of Exela's capital structure (such as varying levels of debt and interest expense, as well as transaction costs resulting from capital markets-based activities). Adjusted EBITDA also seeks to remove the effects of integration and related costs to achieve the savings, asset base (such as depreciation and amortization) and other similar non-routine items outside the control of our management team. All of these costs are variable and dependent upon the nature of the actions being implemented and can vary significantly. Accordingly, due to that significant variability, we exclude these charges since we do not believe they truly reflect our past, current or future operating performance. The constant currency presentation excludes the impact of fluctuations in foreign currency exchange rates. We calculate constant currency revenue and Adjusted EBITDA on a constant currency basis by converting our current-period local currency financial results using the exchange rates from the corresponding prior-period and compare these adjusted amounts to our corresponding prior period reported results. Exela does not consider these non-GAAP measures in isolation or as an alternative to liquidity or financial measures determined in accordance with GAAP. A limitation of these non-GAAP financial measures is that they exclude significant expenses and income that are required by GAAP to be recorded in Exela's financial statements. In addition, they are subject to inherent limitations as they reflect the exercise of judgments by management about which expenses and income are excluded or included in determining these non-GAAP financial measures and therefore the basis of presentation for these measures may not be comparable to similarly-titled measures used by other companies. These non-GAAP financial measures are not required to be uniformly applied, are not audited and should not be considered in isolation or as substitutes for results prepared in accordance with GAAP. Net loss is the GAAP measure most directly comparable to the non-GAAP measures presented here. For reconciliation of the comparable GAAP measures to these non-GAAP financial measures, see the schedules attached to this release.

Forward-Looking Statements

Certain statements included in this press release are not historical facts but are forward-looking statements for purposes of the safe harbor provisions under The Private Securities Litigation Reform Act of 1995.
