

Global fundraising effort highlights Exela's burgeoning [#ExelaGivesBack](#) philanthropy program

IRVING, Texas, Feb. 11, 2020 -- Exela Technologies, Inc. ("Exela") (NASDAQ: XELA), a location-agnostic global business process automation (BPA) leader across numerous industries, presented the National Breast Cancer Foundation (NBCF) with a check for \$5,540, which Exela raised during Breast Cancer Awareness Month as part of its philanthropy goals. The check presentation ceremony took place at NBCF's Dallas, Texas headquarters.

Exela's Senior Vice President of Human Resources, Carlos Mallen, and Katie Beezley, Marketing Event Manager, presented the check to NBCF's Candice Boeck, Manager of Charitable Gifting and Strategic Partnerships, and Ken Ramirez, SVP of Strategic Partnerships and Charitable Giving. Exela has made donations to the NBCF in previous years and looks forward to furthering its partnership with NBCF in the coming year and beyond.

"We are honored, blessed, and humbled to provide a gift to the foundation, which has worked tirelessly for decades to support the fight against breast cancer by providing financial grants to research institutions and most importantly gifts of hope to patients and their families," Mallen said.

“NBCF is grateful for the support from Exela Technologies and their employees to our mission of Helping Women Now,” said Candice Boeck, Manager of Charitable Giving Strategic Partnerships at NBCF. “Their donation will enable us to continue providing help and inspiring hope to women affected by breast cancer across the U.S.”

NBCF, a not-for-profit organization, was founded by breast cancer survivor Janelle Hail in 1991. Its mission is to help women now by providing assistance through early detection, education and support services. According to the NBCF website, 1 in 8 women will be diagnosed with breast cancer in her lifetime. There is currently no known cure for breast cancer, and its early diagnosis is critical to survival.
